

HELP ALICE RISE

Across **Putnam County**, hardworking families are being pushed to the financial brink. **ALICE**® (**A**sset **L**imited, **I**ncome **C**onstrained, **E**mployed) is everywhere—caring for our children, delivering packages, ringing up groceries—yet struggling to afford life’s basics. And because ALICE earns above the poverty level, assistance is often out of reach.

United Way of St. Johns and Putnam Counties is committed to turning struggle into stability for ALICE families. Equipped with our United For ALICE research, backed by more than 300 experts nationwide, we’re working toward a future where everyone can afford to save for an emergency and access quality child care and housing that’s affordable.

Together, we can create real, lasting impact for ALICE in our communities
